राज्यघटनेने दिली उत्कर्षांची संधी

Savitribai Phule: Harbinger of New Era who shook up the establishment

Jaidev Dole: Speech in Badrinarayan Barwale Mahavidyalaya

Lokmat News Network

Jalna: "The Phule couple empowered the women of Maharashtra which was really a great work to be appreciated. Ignorance is a part of slavery. To uproot illiteracy and ignorance education is an essential one. Ignorance causes slavery of human beings. Savitribai Phule revolted against this slavery. She eradicated the slavery of women by the patriarchal society. It is essential to throw away the restrictions of the patriarchy which is basically discriminatory and enable ourselves to take decisions independently. Savitribai Phule really challenged our traditional minded set up and shook it up," said Jaidev Dole.

He is an expert on media. Here at Badrinarayan Barwale Mahavidyalaya he was addressing the students. He spoke on Sati (a women sits on her husband's funeral pyre) Savitri or Sakhi (Comrade Savitri). The established society and its system wrote religious books and scriptures to enslave and bind the marginalized, voiceless people and women. The women were kept busy in following the rituals. The system denied the women to think critically. Due to this their development stopped. On this occasion Principal Dr. Kavita Prashar, Sandeep Patil, Vilas Bhutekar, Rajkranti Walse, Bhagwansingh Dobhal, Priyadarshan Bhaware, Kalidas Suryawanshi were present A large number of students were also present.

Don't come up on police record in academic life.

--- SP Chaitanya 's advice to the students in YIN programme.

Jalna, 20. 'It is in college life that our life gets direction. But the mistakes committed during this life stand to be troublesome for the whole life. So every student should take care that his name should not come up on police record in their college life', Police superintendent Chaitanya S. advised the students. He was speaking in Young Inspirators Network programme organised in Badrinarayan Barwale Mahavidyalaya. Principal Dr. Kavita Parashar, Professor Nishikant Lokhande, teachers and students wear present.

Speaking further he said that we always talk on problems of common people but very less efforts are done to resolve their problems. So the college students without giving any reason of circumstances should study hard and join civil services through competitive examinations for resolving the problems of common people. But many a times students follow wrong way. Involvement in love affairs when under age, cigarette smoking for style, alcohol addiction, using mobiles for wrong things, not following traffic rules are some of the wrong things they do. The offence of kidnapping is registered against them many a times when they elope with their beloveds. So their names come up on police record in student life itself. Their life is destroyed due to these misdeeds.

He further advised the students that college life is the direction for our future so the students should take care that their names should not come up on police record due to the mistakes they may commit in college life.

Girl students should not bear any injustice with them. If they have any problem they should contact Damini squad. Police administration is available for 24 hours for their safety.
